GOAL 1 — $346K OF THE INCREASE

Give the ladder something to rally around

Coaches Fund

Retain and expand the coaching staff. The coaching enhancement and endowed coaching funds have drawn $534K since FY2021 — the fastest-growing area in the file.

Player Scholarship Fund

Named and pooled scholarships. The Gridiron Scholarship raised $667K over six years, the single most productive designation across thirteen years.

Facilities & Locker Room

A visible, finite capital goal. Nothing comparable appears anywhere in thirteen years of data, which is exactly why it would feel new.

A benefit ladder gives each tier a reason to sit at that rung

$25,000/yr	**Founders**	Season tickets, sideline field pass for one game, name on the wall, annual dinner with the head coach
$10,000/yr	**Leadership**	Season tickets, one field pass, team-travel invitation, recognition at the spring game
$5,000/yr	**Captain**	Two season tickets, locker-room tour, private pre-game reception
$2,500/yr	**Varsity**	Two season tickets, invitation to the annual donor reception
$1,000/yr	**Letterwinner**	Programme gift, listing in the game programme, priority ticket access

FOR THE BRAINSTORM Tier and campaign are independent: a donor picks a rung and a cause. Three campaigns × five rungs gives fifteen distinct asks from one structure.

Benefit levels are illustrative and need compliance review against Georgetown and NCAA rules on donor benefits and ticket valuation.

GOAL 2 — $189K OF THE INCREASE

Everyone else goes on a subscription

Incremental

This group gives $93,408 today

Why a subscription and not an appeal

A $42 monthly charge renews itself; a $500 cheque has to be won again every year. 41% of all donors in thirteen years gave exactly once — the subscription is the mechanism that fixes that.

What has to be true

Participation must reach 40%, against a thirteen-year mean of 11.4% and a one-off FY2025 peak of 20.6%. The $500 average is below this group's current $662, so the ask is reach, not size.

SO WHAT The dollars are modest next to the ladder, but this is the only line that grows the donor base — and the base is what produces the next generation of Founders.

565 = 40% of 1,807 alumni, less the 155 on the pledge ladder and 3 principals. This group is 141 donors giving $93,408 in FY2026.
